Recommandation Letter

To whom it may concern,

I have worked with Cristiano Amaral for more than 10 years. During those years, we were very regularly in contact, either by phone or by emails, or when I was visiting Brazil.

Cristiano Amaral has always been a hard-worker, very much dedicated to his work. He has always been very easy to reach, and communication has always been simple between us.

Among his various skills, Cristiano Amaral has a great level of English, and a very good sense of international affairs. He has a great knowledge, for instance, on customs, and how to simplify importations and exportations. Brazil requires experience, and experienced people for anybody willing to make business in this country.

Being very open-minded as he is, makes him always be one step ahead.

I can recommend Cristiano Amaral to anybody willing to make business in Brazil,

Yours faithfully,

Carole Carrillon

Export Sales Manager
