Letter of Recommendation for Cristiano Amaral

Dear Sirs,

It's my pleasure to provide this letter of recommendation for Cristiano Amaral.

I would like to introduce myself as follows:

My name is Claudia Eisenacher, and I have been working for the company Quadrant EPP Deutschland GmbH since 15 years. I am responsible for the inside sales in our MediTECH department, which means I am the customer contact for our MediTECH customers all around the world.

In this job I have been working together with Cristiano Amaral for many years, who is the international trade specialist in the purchase department of our customer Ortosintese, Brazil. Cristiano has been sending me inquiries and orders for our medical grade UHMW-PE Chirulen on a regular basis since many years. When our shipments for Ortosintese are ready, Cristiano is responsible for organizing the transport and doing the import procedure.

My personal impression is, that Cristiano is very professional in his working attitude. He seems to have a very good knowledge of the Brazilian import regulations, and how to take advantage of them. Cristiano showed excellent communication skills, and his written and spoken English is perfect. On a personal level, he has always been charismatic, friendly and fair, all qualities that have surely served him well in his role as an international trade specialist.

In closing, I'd like to express my thanks to Cristiano for the good cooperation over the last years. It has always been a pleasure to work with him!

Best regards,

Claudia Eisenacher
